EDUCATION

Garden City University
Bengaluru, India B.Tech, Information Technology | 2025 – 2029
(Expected) Second Year | CGPA: [Confirm exact current CGPA] (~9.0 in relevant academic performance)

SELECTED PROJECTS

- JARVIS — Personal AI Agent / Intelligent Automation Assistant
- KZEL OS — AI-Powered Desktop Environment
- AI Social Media Automation Pipeline
- KZEL Global Ventures — Website & Digital Platform

SUMMARY

Second-year B.Tech IT student and founder building practical AI systems, automation workflows, and software products. Strong academic performance (~9 CGPA in relevant coursework) paired with hands-on experience designing AI agents, experimenting with local and hosted LLMs, and shipping working tools for business operations. Looking for internships and freelance opportunities in AI engineering, prompt engineering, AI automation, and software development where I can contribute to real product work.

EXPERIENCE

- Founder & Technology Operations — KZEL Global Ventures | 2024 – Present India-based import/export venture. Built the company's digital infrastructure and AI-assisted workflows independently.
- Designed and developed the company website, SEO strategy, and online presence end-to-end.
- Built automation workflows using n8n and AI integrations to streamline business operations.
- Implemented AI-assisted content, research, and client communication workflows.
- Managed business development, marketing, and client communication across digital channels.
- Engineered internal tools using Python, APIs, and Google Sheets to reduce manual work.
- Led all technology decisions: hosting, deployment, analytics, and digital infrastructure.

SKILLS
